

Bundaberg

Aged Care Residence

A tropical oasis

Towering palms, well-kept gardens and sprawling lawns greet you at Bundaberg, where our convenient, family-style community is nestled in quiet suburban Kepnock.

In this relaxed environment, we provide care for residents with short-term and permanent needs, including dementia.

Our approach to care comes from the family values and genuine care that have underpinned TriCare for 50 years, ensuring that each resident receives the care to meet their individual needs, even as life changes.

We ensure residents keep engaged with daily social interaction, through our lifestyle activities and therapies, convivial dining and 24-hour staff presence.

Relax, knowing loved ones are in good hands with TriCare.

Feel right at home

Traditional, familiar surroundings with lush gardens provide an ideal setting for residents to feel at home. The shaded alfresco areas with picnic tables are popular for enjoying the great outdoors with family and friends. We offer a selection of comfortable accommodation, consisting of classic single and companion rooms.

Every day a special day

Delicious, fresh meals are prepared daily by our onsite chefs with nutritious, tasty choices, and dining rooms hum with chatter at meal times. We help residents look and feel their best with our onsite hairdressing salon and professional wellbeing services, while there's plenty of social interaction through our lifestyle activities program.
