

Labrador

Aged Care Residence

Feel the coastal lifestyle

Gentle sea breezes and sweeping northern Gold Coast sea views bring a sense of calmness to Labrador, where our family-style community helps residents to feel at home.

In this relaxed environment, we provide care for residents with short-term and permanent needs.

Our approach to care comes from the family values and genuine care that have underpinned TriCare for 50 years, ensuring that each resident receives the care to meet their individual needs, even as life changes.

We ensure residents keep engaged with daily social interaction, through our lifestyle activities and therapies, convivial dining and 24-hour staff presence.

Relax, knowing loved ones are in good hands with TriCare.

Feel right at home

Traditional surroundings create a cosy, home-style environment where residents can spend quality time with family and friends. Our single level layout enables indoor/outdoor living to enjoy the magnificent coastal location. We offer a selection of comfortable accommodation, consisting of premium or classic single rooms, and classic companion rooms.

Every day a special day

Delicious, fresh meals are prepared daily by our onsite chefs with nutritious, tasty choices, and dining rooms hum with chatter at meal times. We help residents look and feel their best with our onsite hairdressing salon and professional wellbeing services, while there's plenty of social interaction through our lifestyle activities program.
