

Mt Gravatt

Aged Care Residence

An air of family style

Traditional comforts in a refreshed environment create a welcoming theme at Mt Gravatt, where residents enjoy our wholesome, established suburban community.

In this relaxed environment, we provide care for residents with short-term, permanent and dementia needs.

Our approach to care comes from the family values and genuine care that have underpinned TriCare for 50 years, ensuring that each resident receives the care to meet their individual needs, even as life changes.

We ensure residents keep engaged with daily social interaction, through our lifestyle activities and therapies, convivial dining and 24-hour staff presence.

Relax, knowing loved ones are in good hands with TriCare.

Feel right at home

Cosy, familiar surroundings provide an ideal setting for residents to feel at home, and spend quality time with family and friends. Lush gardens and undercover outdoor areas are popular for relaxation and special events. We offer a selection of comfortable accommodation, including premium or classic single rooms, and classic companion rooms.

Every day a special day

Delicious, fresh meals are prepared daily by our onsite chefs with nutritious, tasty choices, and dining rooms hum with chatter at meal times. We help residents look and feel their best with our onsite hairdressing salon and professional wellbeing services, while there's plenty of social interaction through our lifestyle activities program.
